

Rauner Leads

CHICAGO, IL - Ogden & Fry, an independent polling company, expects Bruce Rauner will be the next Governor of Illinois, but the race will be tight.

Two separate automated statewide polls of likely voters for Governor were conducted by Ogden & Fry this weekend. Respondents were selected by random sampling to match midterm election turnout ratios (see Methodology).

POLL #1 Saturday, Nov. 1, 2014 n=1,163

Bruce Rauner	574	49.4%
Pat Quinn	519	44.6%
Chad Grimm	70	6.0%

Margin of Error +/- 2.93% at 95% Confidence Interval

POLL #2 Sunday, Nov. 2, 2014 n=1,051

Bruce Rauner	511	48.6%
Pat Quinn	474	45.1%
Chad Grimm	66	6.3%

Margin of Error +/- 3.08% at 95% Confidence Interval

ANALYSIS

With nearly \$100 million spent between Rauner and Quinn, the campaigns became an air war with little need for ground troops as most voters saw more than enough of both men to make up their minds. The hyper-negative ads did their damage, but eventually turned into white noise. Voter turnout will determine this election, but Ogden & Fry calculates Bruce Rauner just bought himself one of the worst jobs in America.

OGDEN & FRY

In 2010, Bill Brady saw a 7-point lead disappear. The Brady defeat was attributed to 2 factors: the Personal PAC letter to suburban women and the million-plus door knocks in 4 days in African American communities.

Quinn and Rauner were both pro-choice candidates so that issue never became a true factor. Also, it appears the African American community while still reliable is not “fired up” as their confidence in the Democratic brand has weakened. The impressive Democratic GOTV process while weakened may still save the day for Quinn. However, Ogden & Fry poll results suggest the “Republican Wave” will be just enough for Rauner.

When "undecided" is removed as a choice, the two polls confirm, 2 out of 3 independents are breaking for the Republican. This reflects the “Republican Wave” that is also seen across the nation.

While several reporters and news outlets have predicted Pat Quinn will be re-elected, Ogden & Fry predicts Bruce Rauner will be victorious. With all things being equal except day, Rauner twice beat Quinn by more than the margin of error, but not by much.

Other recent polls have both men within a couple points of each other. If Nate Silver’s mean average approach is applied to this race, it is a statistical dead heat.

METHODOLOGY

Ogden & Fry strives to increase the accuracy of political polling by measuring voters most likely to vote based on voter history. Voting is a socialized behavior with predictable reliability and consistency.

Ogden & Fry maintains a database with 20 years of voting history. For a midterm election poll, 60% of the sampled population voted in 3 of the last 3 elections, 30% voted in 2 of the last 3 elections, and 10% voted in 1 of the last 3 elections. This 60/30/10 ratio reflects midterm election voting patterns.

CROSSTABS

Respondents by Gender

11/1/2014
